The current balance sheet date is clear if SEC XBRL filers correctly keep the value of the dei:DocumentPeriodEndDate, the endDate value of the

period for the "required context", and that date is actually used on the current balance sheet reported facts (sometimes filers use a different date).

Also, the current balance sheet date is the endDate of the income statement and cash flow statement.

Likewise, the current balance sheet date and the current income statement period (start and end) is clear for a 10-K or for a 10-Q for the FIRST QUARTER where the YTD and QTD information is the same, there is only one possible date which could be used for the start date value.

HOWEVER, when there are income statements with YTD and QTD information, what is the value of the startDate of the required context? The start date of the YTD income statement? (that makes the most sense because it is consistent with the 10-K and the 10-Q for the first quarter. Or, is it the start date of the QTD?

## EFM Rule Seems Clear, YTD is Correct

6.5.19 An instance covering a reporting period must contain a Required Context that is an xbrli:context having xbrli:startDate equal to 00:00:00 on the first day of the reporting period and xbrli:endDate equal to 24:00:00 on its last day.

This rule defines "Required Context". For example, this rule applies to Form 10-Q filings for a company with a June 30, 2009 fiscal year end as follows:

Quarter	xbrli:startDate	xbrli:endDate
1	2009-07-01	2009-09-30
2	2009-07-01	2009-12-31
3	2009-07-01	2010-03-31
